

Dev Log

09/22/2023

- 9AM - 10AM: Watched Figma tutorial
- 10AM-10:15AM: brainstorming ideas. Too much storm, not enough brain...
- 10:15AM - 11:30AM: started sketching mobile device wireframe on Figma, used iCloud mail as design inspiration. Also found out about Icon Buddy plugin on Figma to use as buttons icon
- 11:30AM - 12:30PM: Started sketching tablet wireframe, used iCloud mail + Figma example provided by Alexander as inspiration.
- 12:30PM - 1:00PM: Started sketching desktop wireframe, used iCloud mail + Figma example provided by Alexander as inspiration.
- 1:00PM - 1:30PM: Used colors from Apple's HIG guidelines ([Color | Apple Developer Documentation](#)) to color the wireframe.
- Everything seems to be in order, I did it!

9/24/2023

- 4AM - 6AM: Watched tutorial for bootstrap, learned about making nav bar [Bootstrap 5 Crash Course | Website Build & Deploy - YouTube](#)
- 2PM - 4PM Coded the nav bar for my project

9/26/2023

- 4AM - 6AM: Ran into issue with email content, does not centered correctly
- 7AM - 9:30AM: Watched [Bootstrap CSS Framework - Full Course for Beginners - YouTube](#)

9/27/2023

- 5:30PM - 7:30PM: learned about using the Card component for email content from code review, will recode that section from raw text to using the Card component

9/30/2023

- 11AM - 1PM: Finished the basic layout, replaced email content, replaced the raw text content of the email to using Cards

10/2/2023

- 6:15PM - 7:15PM: Fixed reply box, fixed reply button, pushed latest update to Github
